Session 2025-26

Date: 20/01/26

Circular No. SIS/25/161

Dear Parents,
Namaskar!

We are excited to inform you that the IDA Annual Examination for **Grades I to IV** students will follow a fun and engaging **activity-based assessment** format this year. This approach is designed to encourage teamwork, hands-on learning, and creative thinking while applying concepts learned in class.

In this assessment, students will be assigned activities in **groups of four**, where they will individually prepare the activity and collaboratively perform the activity with the assigned group. This group activity will help foster teamwork, critical thinking, and hands-on problem-solving skills.

Key details of the assessment:

- **Group Formation:** Students have been divided into groups of four or five.
- **Activity Assignment:** Each group has been assigned a specific activity to work on.
- **Preparation Phase:**
 - All students are required to prepare the assigned activity in advance and must come well-prepared to actively participate.
- **Final Presentation:** During the final exam, each member of each group will be required to present their activity in front of the camera.

We believe that this approach will provide students with valuable practical exposure and a deeper understanding of STEM concepts and camera confidence. Your support in encouraging and motivating the students will be greatly appreciated.

For any queries or further details, please feel free to contact Mr. Amar. Mob: 9006326985

Regards,

Ms. Anurupa
(Principal)
