Noida, G.B Nagar (U.P)

Session 2025-26

Date: 20/01/26

Circular No. SIS/25/162

Dear Parents,
Namaskar!

We are pleased to inform you that the **IDA/STEM Annual Examination** will follow a **project-based assessment format** this year for **grades V to IX**. This innovative approach aims to encourage collaborative learning and creative application of the concepts that students have learned so far.

Key details about the project-based exam are as follows:

- **Project Creation and Presentation:**
Students will independently form groups up to a maximum of four members to design and develop a project. Students who wish to work individually may also do so. Each group or individual will be required to present their project, demonstrating their understanding, creativity, and technical skills.
- **Project Integration:** The project must integrate concepts and topics from the courses covered during the academic year. Students who wish to go beyond the prescribed curriculum and incorporate additional ideas and concepts are highly encouraged to do so.
- **Resource Procurement:** Students are expected to arrange all necessary components and materials required for their projects independently.
- **Early Project Commencement:** Given the time-intensive nature of project-based learning, we recommend you to encourage students to start planning and working on their projects **from now on**.
- **Project Deadlines:** The school faculty will communicate specific deadlines to students for various stages of the project, such as project proposal submission, progress reports, and final project submission.

Ms. Jyoti Rana
(Principal)
